

Dear Mr. Poratt,

After 16 months I have finally worn nail polish again. I found the product you sent very satisfactory, particularly the quick drying. I felt confident using it, but still did not leave the top coat on very long, just to be sure. I am still using Gordochoom on one thumb nail daily and I will continue to treat all nails at least once a month to keep the dreaded fungus at bay. I understand this could be a continuing problem for a diabetic.

Flattery will get you everywhere! I did appreciate your call to express pleasure at receiving my small Thank You card and your charming daughter's comments on the product. I have made the enclosed cards for her use – notelets or whatever. I enjoyed every moment of stitching these for her.

Please let me know when the base coat is on the market and the outlets that will be stocking it.

Again, many thanks for your assistance.

Best wishes.

Helen Quinn
